XPS 14

Power in motion

Unlock non-stop creativity with the XPS 14, a perfect balance of go-anywhere mobility and high performance.

- The bold design of the XPS 13 Plus introduced in 2022 has forever changed the visual identity of the XPS brand. The sleek, iconic design is now available in a balanced 14.5-inch form.
- Crafted with machined (CNC) aluminum and Gorilla® Glass 3 to deliver a strong, lightweight laptop. XPS is available in Platinum or Graphite with tone-on-tone finishes for an elegant, minimalistic design.
- A unique touch function row, seamless glass touchpad and comfortable keyboard are modern, easy-to-use interiors that deliver a clean, harmonious look and allow you to switch tasks effortlessly, while eliminating distractions and placing the focus on productivity.
- The XPS 14 is a perfect balance of power and portability with up to 47W of sustained performance in a thin and light form, starting at only 3.7 pounds and only 18.0 mm thin. Run demanding apps with Intel® Core™ Ultra 7 processors and swiftly edit and export videos with NVIDIA® 40-series graphics up to GeForce RTX™ 4050. Paired with superfast LPDDR5x memory up to 64GB and up to 4TB storage.
- True-to-life color and sharp detail on a large 14.5" InfinityEdge display plus incredible sound brings content to life, so you are totally immersed. Available with 3.2K+ OLED touch display option. Quad speakers are professionally tuned and deliver cinematic sound with Dolby Atmos.
- Enjoy crystal clear video calls with an intelligent FHD (1080p) webcam which reduces noise in the frame, while intelligent audio reduces background noise.
- Copilot in Windows 11 complements your capabilities and creativity with intelligent assistance and relevant answers. Your own personal AI assistant built right in to do the heavy-lifting so you can do the extraordinary.
- The new XPS family has its highest level of sustainable materials yet. Crafted with at least 25% recycled materials, including an innovative combination of recycled and low emissions aluminum and post-consumer recycled plastics, which helps lower the carbon footprint of the laptop by up to 89%*. The XPS 14 ships in packaging made with 100% recycled or renewable content and is 100% recyclable.
